

Heavy Duty Pot & Pan Cleaner

DESCRIPTION

This formulation features **Suga®Fax D10NC** for an extreme clean without causing any damage to your pots and pans. **Suga®Fax D10NC** is 100% naturally derived and very mild on skin compared to other cleaners.

FORMULATION

Order	Chemical Name	Trade Name	%
1	Water		qs to 100.00
2	Carbomer	Carbopol 674 ¹	0.70
3	Sodium Hydroxide (50%)		14.00
4	Sodium Metasilicate (Anhydrous)		3.00
5	Sodium Decylglucosides Hydroxypropyl Phosphate	Suga®Fax D10NC	2.00

PROCEDURE

1. Use an overhead mixer to combine the water and Carbopol 674. Add the polymer, slowly, and mix until they are homogeneous.
2. Add the remaining ingredients in order with adequate mixing between additions while heating up to 60 °C.
3. Heat the mixture to 65-70 °C and continuously mix until it creates a homogeneous liquid.

TYPICAL PROPERTIES

Appearance Hazy Liquid
pH > 13.0
Viscosity 700 cP
