Cola®Mulse FE is a unique, 100% active, non-ionic fragrance solubilizer designed to incorporate oil soluble fragrances and essential oils into water-based cleansing formulations.

By pre-blending Cola®Mulse FE with a fragrance of choice, the formulator can incorporate large amounts of oil-based fragrances into anionic water-based cleansing products while maintaining the clarity and performance characteristics of the finished product.

Cola®Mulse FE will allow for cold-process formulations with a wide variety of fragrances and essential oils.

USE LEVELS

Recommended starting use rate is 1:1 fragrance:solubilizer. That ratio can be reduced in many applications to as low as 4:1 fragrance:solubilizer, depending on the individual fragrance composition.
